AUSF Italia is the Confederation of Italian Forestry Students Association University, established on 28/09/09 in Molise. Combined AUSF of: Padova, Torino, Viterbo, Molise, Palermo, Reggio Calabria, Napoli e Firenze under one statute. Individual local AUSF proposed several initiatives that give students, forestry and not, the opportunity to put into practice what they learn every day during school hours.

The activities are open to all students who are interested in some aspects of nature, environment, technology and sociology, without specific knowledge.

One of the aims of the Association is pursuing the idea that the University is not just a place to receive the teachings.

The University is primarily a space and a time to live, in which the encounter and exchange of ideas and opinions can arouse in us the desire to interact with others and enable us to confront the future.

“initiative funded by the contribution of the University Funds Law 3/8/1985 n.429”
